

17 July 1979

MEMORANDUM FOR: Director, Information Resources Office
Deputy Director, Information Resources Office
Chief, Program and Budget Division, IRO

STATINTL
FROM:

SUBJECT: Imagery ADP-T Study - Proposal Evaluation

STATINTL 1. Attached please find a folder containing the following information regarding the above subject:

Inventory of Imagery Systems

Technical Proposal - 16 July 1979

Cost Proposal - Part I: Business

Management Information - 16 July 1979;

Part II: Tables and Supporting Schedules -
16 July 1979

Part I - Technical Proposal for the
Impact of Imagery Collection Systems
on ADP-T Systems, 16 July 1979

Part II - ☐ Cost Proposal for Impact
of Imagery Collection Systems on ADP-T
Systems, 16 July 1979

s
Technical Proposal, Imagery ADP-T
Study, 16 July 1979

- Business Proposal, Imagery ADP-T Study, 16 July 1979
- Standard Practice Procedures for the Protection of Classified Information (not included, only one copy submitted)

Evaluation sheets for each of the above firms are included in the folder.

2. An opportunity for each of the above perspective contractors to submit classified presentations is scheduled as follows:

Tuesday, 24 July 1979, Conference Room 1S09

0900 -

1030 -

1330 -

STATINTL

3. During the above presentations, we will be able to clarify questions regarding the proposals.

Proposal Evaluation Guidelines

1. Proposal and contractor would be rejected if exceptions were made to hardware and software exclusion clauses. Modification to schedules or product reports are acceptable to sponsor.

2. Rating and evaluation structure of proposals:

I. Firm's Qualifications (maximum 30 points).

A. Experience in imagery related systems, either software or hardware, ADP-T contracts.

1 point for each year of work in such a project to a maximum of 12 points.

B. Management capabilities depending upon corporate experience in complex and involved projects.

- 1) Firm's expertise
good - 3 points
excellent - 6 points
exceptional - 9 points

- 2) Program Manager's Expertise
good - 3 points
excellent - 6 points
exceptional - 9 points

II. Consultant's qualifications of individuals to be assigned to the study (maximum 60 points).

A. Experience in conducting data flow ADP-T analysis studies.

2 points for each year of experience of each consultant to be assigned, maximum of two consultants, to the study to a maximum of 20 points.

- B. Each consultant's experience in imagery ADP-T system.

4 points for each year of imagery collection and ADP experience of each consultant to be assigned, maximum of two consultants, to the study to a maximum of 20 points.

- C. Each consultant's experience or exposure in the current status and capability of secure communications transmission systems.

4 points for each year of background of each consultant to be assigned, maximum of two consultants, to the study to a maximum of 20 points.

- III. Cost: All proposals received will be rated according to cost of the study, both phases II and III. For purposes of evaluation, the total of both Phases will be totaled. The lowest cost contractor will receive 15 points. The highest contractor will receive 0 points. Costs falling between these extremes will receive proportional points, based upon each's costs.

10.8

3. In considering the point rating scales defined above, each category I and II are not mutually exclusive. For example, if a consultant had four years of imagery ADP-T experience, 16 points would be credited in IIB above. If this consultant had only been with the firm for two years and these two years represents the only experience the firm has had with imagery related systems, IA would be credited with 2 points. Fractions of years would be considered as whole years for the purpose of this evaluation.

Discussion:

HARDWARE EXCLUSION:

The successful contractor awarded this contract will be prohibited from submitting bids for hardware for imagery systems studied under this contract for a period of five (5) years from the award of this contract.

SOFTWARE EXCLUSION:

The successful contractor awarded this contract will be prohibited from submitting a proposal as a prime contractor, or as a team member of another contracting team, for ^{computer} software development for imagery systems studied under this contract for a period of five (5) years from the award of this contract. The successful contractor may, however, contract to a prime contractor for software development tasks after a prime contractor has been awarded an imagery software development contract.
